

Control Foam in Paints and Coatings

Oil-Based Non-Silicone Defoamers

Reduce foam quickly, economically, and more effectively with our line of oil-based, non-silicone defoamers. Perfect for a range of industrial jobs, these defoamers eliminate excess foam and entrained air in a myriad of applications—everything from paints and coatings to waste water.

- **TRANS-700**—Oil-based defoamer with AMSiL™ treated silica
- **TRANS-701**—Oil-based defoamer with AMSiL™ treated silica and wax
- **TRANS-713**—Oil-based defoamer with AMSiL™ treated silica and proprietary actives
